ABSTRACT

The fourth in a series, this publication presents a statistical picture of Illinois Public Libraries during the 1990-1991 fiscal year. Its purpose is to provide librarians and trustees with statistics that can be compared to those of other libraries of similar size and environment to determine whether the library is above or below the average for its system or population group, to justify library actions and budgets, to plan for library service, and to evaluate the library's progress. The information was derived from the 1990-91 Illinois Public Library Annual Report forms. Three statistical views of Illinois public libraries are presented. Section I, Illinois Public Library Statistics Listings, provides data about library operations, use, resources, and finances for each public library submitting an Illinois Public Library Annual Report of Fiscal Year 1990-91. Section II, Public Libraries Grouped by Size of Population Served, describes statistical averages and percentiles for libraries providing direct service to populations of different sizes. Section III, Public Libraries Grouped by System, reports statistical averages and percentiles for libraries providing direct service with membership in one of the state's 18 library systems. An executive summary provides state-level statistics and compares library services, income, and expenditures with those in other states. Appended are: (1) Library Locations and Legal Names Cross-Reference; (2) Definitions and Acronyms; and (3) Illinois Public Library Annual Report Form 1990-1991. (KRN)

PREFACE

For over a decade, the Library Research Center has compiled and published statistical data for the Illinois State Library. In this fourth edition of the **Illinois Public Library Statistics: A Guide for Librarians and Trustees, 1990-1991**, we have provided a statistical picture of public libraries in Illinois during the fiscal year 1990-91.

Included in this volume is an Illinois Public Library 1990-1991 Executive Summary. Because the LRC has collected data from Illinois Public Libraries for over 10 years, we are now able to incorporate trend data into the summary section. The summary also includes comparisons to national averages and to data from other mid-western states. National public library data was obtained using Federal-State Cooperative System (FSCS) Public Library data from the 1990 fiscal year. Tables of resource and financial statistics for each public library in Illinois were produced along with tables giving average and percentile data.

Many people contributed to this work. Throughout the year, Kathleen Bloomberg and Stanley Adams of the Illinois State Library have given advice and direction needed to complete this project. Contributing their expertise are members of the Statistical Services Advisory Committee (John Blegen, Robert Hafeman, Sarah Long, Susan Lucco, and Thomas Moran) from the public/system library community. This committee meets semi-annually to advise the LRC on content, interpretation, and presentation of data and on the format and usefulness of materials produced by the LRC.

This issue is the result of the work of many LRC staff. Leigh Estabrook, Dean of the Graduate School of Library & Information Science, serves as Director of the LRC and provided the necessary guidance for successful completion of the project. Chris Horak, Assistant Director of the LRC managed and oversaw the Statistical Services contract of which this publication is a part. Project Coordinator, Lynn Hamilton supervised coding, data entry and data cleaning of the IPLARs, produced charts, conducted the analysis and prepared the summary section of this publication. John Walder provided computer expertise throughout the project and was responsible for the production of the tables included in this volume. Sylvia Temperly and Tiffany Severns coded IPLARs and resolved data related problems. Shari Grindley managed records associated with the project and assisted with coding. This project could not have been completed without the aid of our student assistants, Ron Beals, Elli Kaplan, Shawnte Massey and Jennifer Perica who spent countless hours precoding and entering data from IPLAR forms.

INTRODUCTION

Libraries can be understood in many ways; by working in them, by visiting them, and by reading verbal and numerical descriptions of them. Numerical or statistical descriptions condense factual information about many aspects of library operations and present the information in a variety of ways, each providing a different view of the total library picture.

This publication, **Illinois Public Library Statistics: A Guide for Librarians and Trustees, 1990-1991**, presents a statistical picture of Illinois Public Libraries during the 1990-1991 fiscal year. The information is derived from the 1990-91 Illinois Public Library Annual Report forms.

Statistics should be viewed by librarians and trustees as tools and not as ends in themselves. The value of the statistics published here is that they can be used both internally and externally by the library's administration. Internally, a library's individual statistics can be compared to previous years' statistics to track performance, assess the success of the library's chosen goals, set new service and management objectives, or keep the library headed in its chosen direction. Externally, a library's individual statistics can be compared to other libraries of similar size and environment to determine whether the library is above or below the average for its system or population group, to justify library actions and budgets, to plan for library service, and to evaluate the library's progress.

STATISTICAL VIEWS OF ILLINOIS PUBLIC LIBRARIES

Three statistical pictures of Illinois public libraries are presented in this publication:

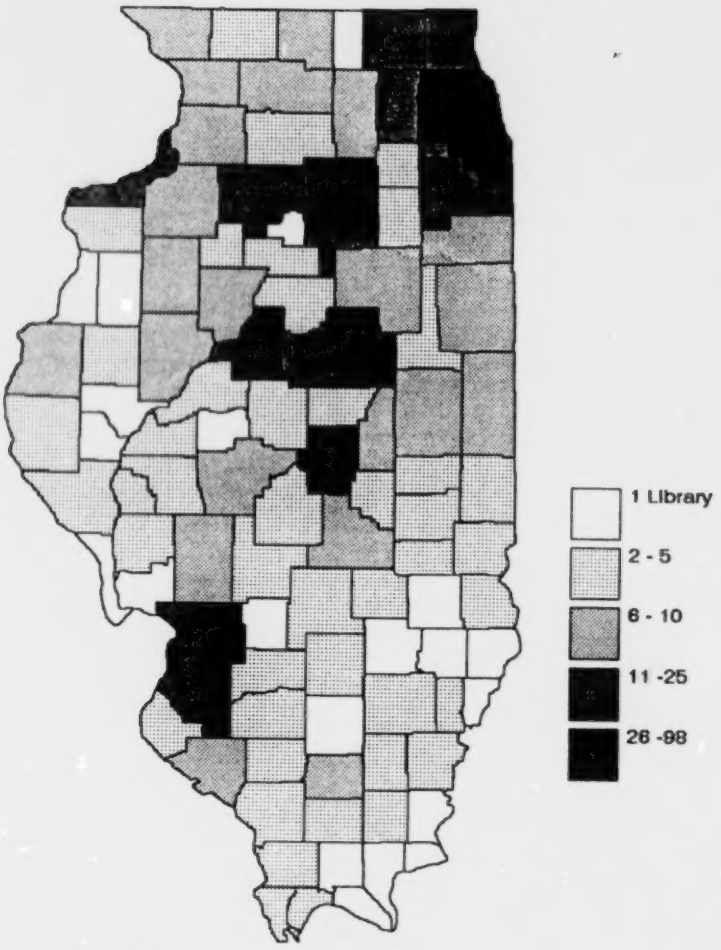
SECTION I: ILLINOIS PUBLIC LIBRARY STATISTICS LISTINGS
This section presents data about library operations, use, resources, and finances for each public library submitting an Illinois Public Library Annual Report for FY 1990-91.

SECTION II: PUBLIC LIBRARIES GROUPED BY SIZE OF POPULATION SERVED
This section describes statistical averages and percentiles for libraries providing direct service to populations of different sizes. Selected aspects of library operations are listed for individual libraries and provided in summary form for each population group.

SECTION III: PUBLIC LIBRARIES GROUPED BY SYSTEM
This section describes statistical averages and percentiles for libraries providing direct service with membership in one of Illinois' eighteen library systems. Two tables listing statistics for each library have been provided for every system. Selected aspects of library operations are then provided in summary form for each library system.

Illinois Public Libraries
1990-1991

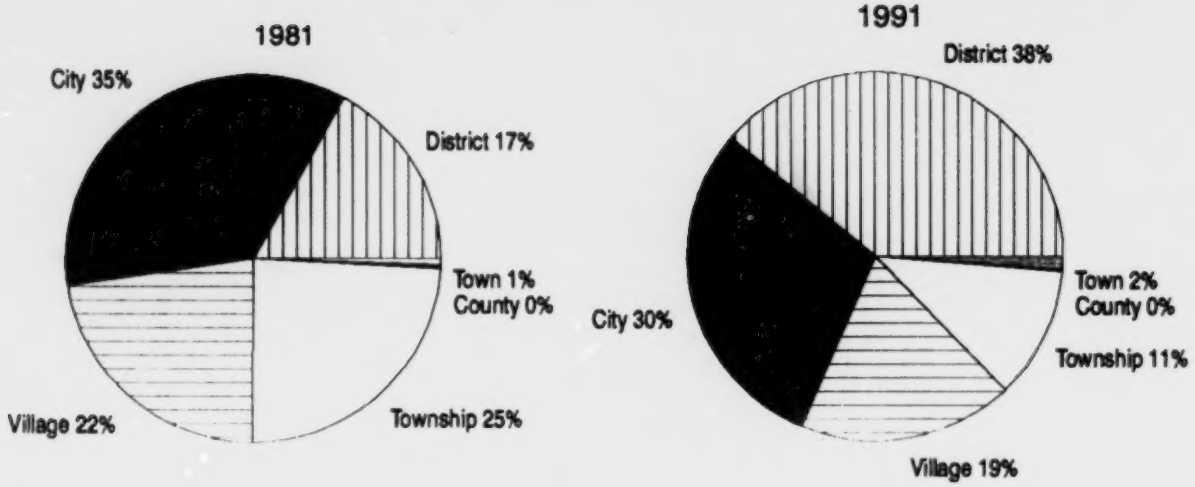
Number of Libraries per County



DATANET PLUS MAPPING

In the 1990-1991 fiscal year there were 624 public libraries in Illinois, up 7 percent since 1981 when there were 582 public libraries in Illinois. Of the 624 public libraries in Illinois, 614 submitted annual reports to the Illinois State Library in 1991. The data was collected for the 1991 fiscal year, ending between December 31, 1991 and June 30, 1991. The following pages provide statistics for the State of Illinois. Along with the state-wide statistics, National Federal-State Cooperative System(FSCS) Public Library Data is used to make comparisons and show how Illinois ranks nationally. The most current FSCS data available from the National Center for Education Statistics is the FSCS 1990 data set.

Types of Libraries in Illinois
1981-1991



Types of Illinois Libraries

	1981	1991
District	99	243
City	206	185
Village	131	116
Township	141	72
County	2	1
Town	3	7

Public libraries in Illinois are classified into six distinct groups; district, city, village, township, county and town libraries. Over the past ten years many libraries have converted to public library districts or annexed additional service areas. Conversion to district library status or annexation of additional service area allows a library to serve a larger population. This decreases the number of Illinois residents unserved by a public library and enables the Illinois State Library to serve as many Illinois citizens as possible.

Illinois Library Funding

Library Income Received

There has been a gradual increase in library funding over the past 10 years as shown by the figures below. Total receipts received by Illinois Public Libraries in 1991 were $279,223,681 up from $114,346,956 in 1981. The actual dollar amount received has gone up substantially (59%). However, the adjusted dollar (constant) amount received has increased at a much slower rate (38%) since 1981.

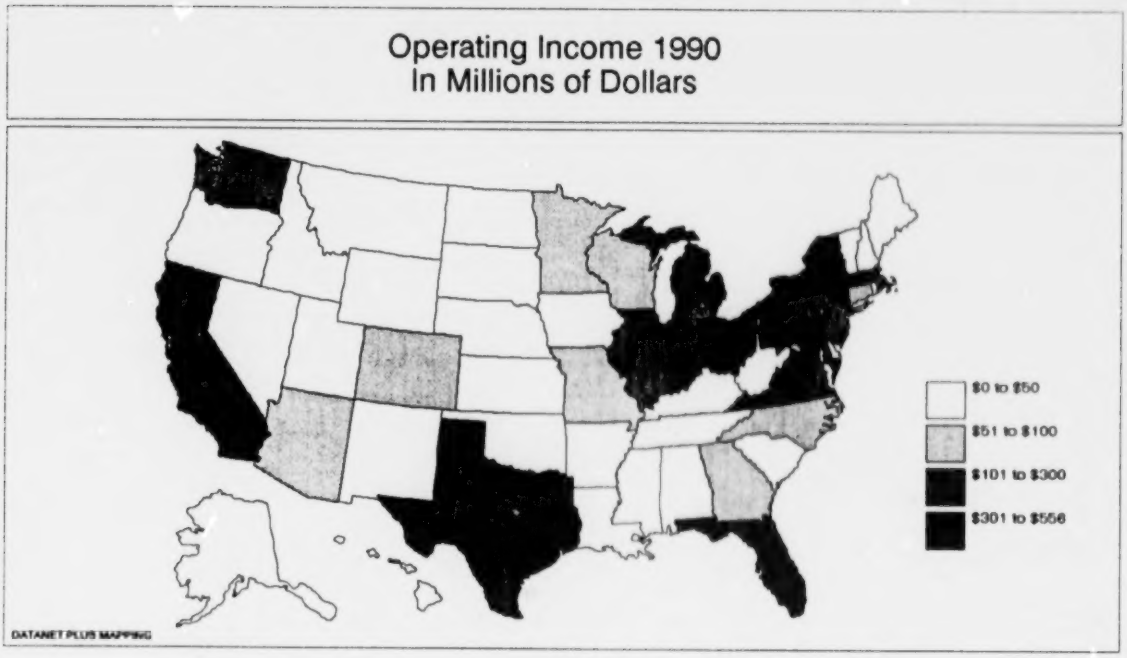
1989	$228,802,776.00	$184,518,368.00
1991	$279,223,681.00	$205,010,045.00

Public Library Operating Income



National Income Comparisons

According to the 1990 FSCS data, Illinois ranks third nationally in the total amount of operating income received. Total operating income for Illinois in 1990 was $246,360,660. In Illinois, the average amount of public library income received per capita is $24.33. The major source of funding (79%) for Illinois Public Libraries originates from local tax revenues. The table below shows how Illinois compares to other midwestern states in per capita income.

U.S. Public Libraries 1990

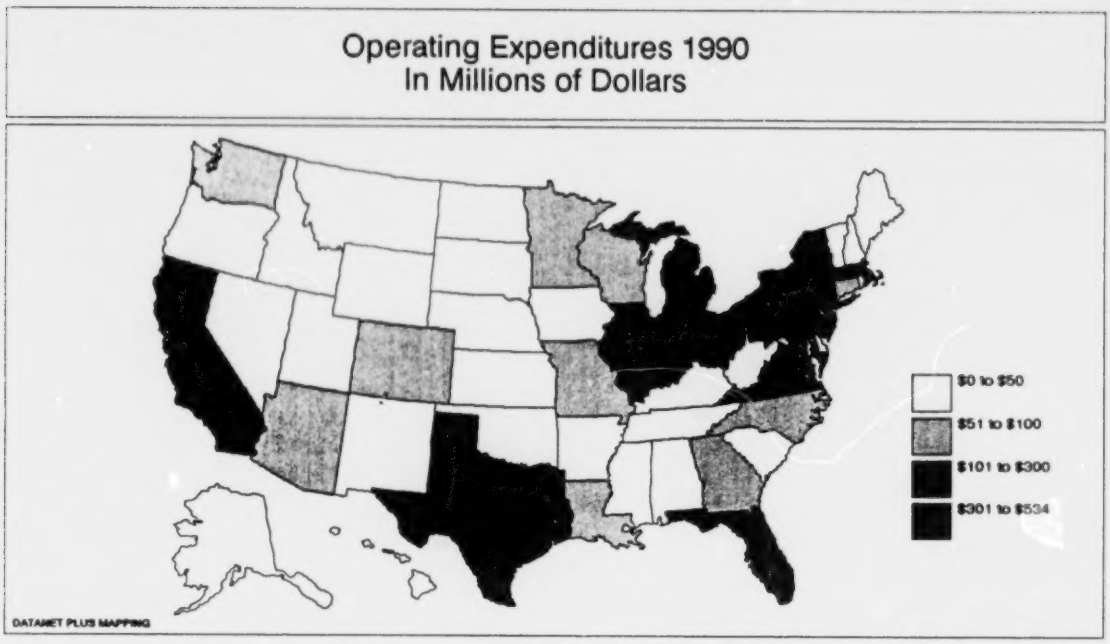
Public Library Operating Expenditures



Operating Expenditures

Total Illinois Public Library expenditures in 1991 were $232,047,151 up from $113,992,753 in 1981. Nationally Illinois ranks ninth in operating expenditures per capita with $21.39 spent per capita in 1990. The national average for dollars spent per capita was $16.28 in 1990. Below is a graph which shows how Illinois ranks in expenditures per capita against other midwestern states.

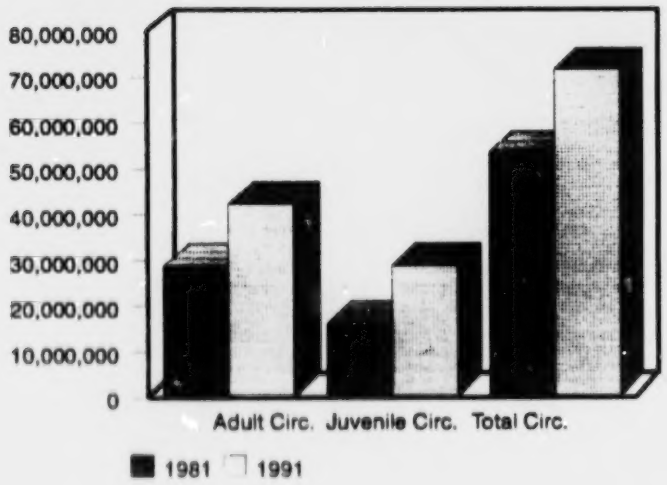
Circulation

Illinois Public Library Circulation
Trends 1981-1991



Circulation Transactions

Circulation transactions in Illinois have increased steadily in the past ten years. In 1981, total circulation for Illinois public libraries was 53,412,491 items circulated. In 1985, total circulation transactions reported by Illinois public libraries was 60,313,032 items circulated. In 1991, total circulation increased to 71,626,762 items circulated.

In Illinois, items circulated per capita rose from 5.6 items in 1981 to 6.2 items in 1985 and to 7.1 items per capita in 1990. This 26% increase in circulation from 1981 to 1991 has put Illinois within range of neighboring midwestern states and above the 1990 national average of 5.75 items circulated per capita.

Library Holdings

Volumes Held

The total number of volumes held in Illinois public libraries for 1991 was 32,517,717. The 1990 national average number of volumes held per capita was 2.53 for all public libraries in the U.S. For 1990, the number of volumes held per capita in Illinois public libraries was 3.13, again close to other midwestern states, and slightly above the national average.

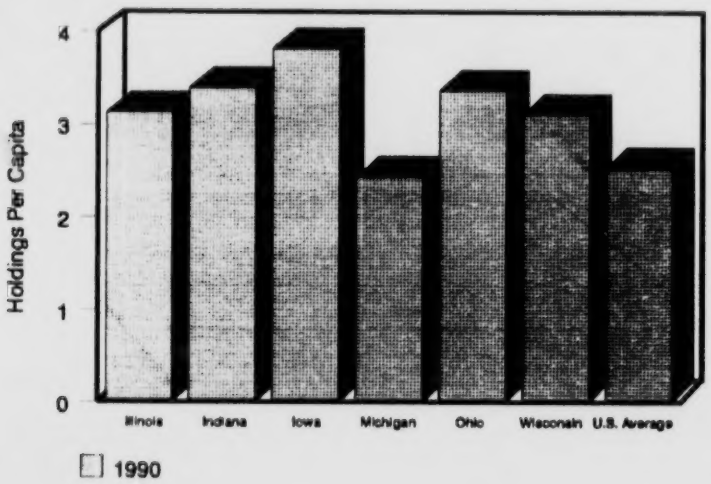
Selected Midwestern States



The types of materials that libraries hold has changed dramatically in the past ten years. The number of films and videos held in Illinois public libraries has increased 90% since 1981. The number of audio materials such as records, cassette tapes and compact disks has nearly doubled in Illinois since 1981. The number of periodical titles held has increased 38%.

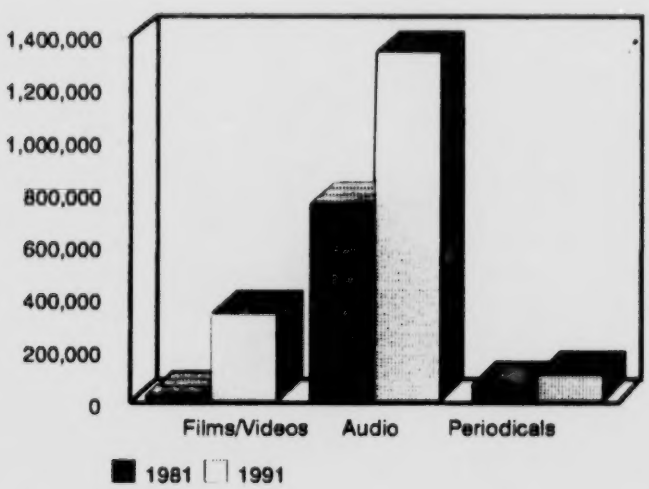
Items Held 1981-1991

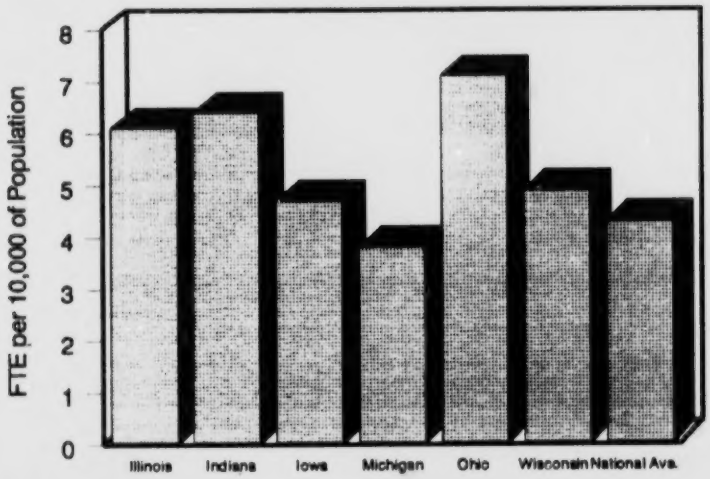


Library Staff

In 1991, Illinois Public Libraries reported 5,894 FTE (Full-time equivalent based on a 40 hour work week) staff employees. This figure includes all employees except maintenance staff. Of those holding the title of librarian, 63% have a Master's degree in Library Science from an American Library Association (ALA) accredited program.

The number of paid staff per 10,000 of the population in Illinois for 1990-1991 was 5.8 FTE. According to 1990 FSCS data, the national average is 4.3 FTE library staff per 10,000 of the population.

Paid FTE per 10,000 of the Population
Selected Midwestern States



For the first time, the Illinois State Library has collected data on the number of librarians performing duties characteristic of different librarian job classifications. Libraries were asked to identify as "cataloger", "children's librarian", or "reference librarian" each person who regularly spends at least 75% of his/her work week in duties characteristic of or directly related to each of these positions. They were also asked to identify the "head librarian" or "library director". Below is a pie chart which shows the percent of librarians performing each job classification.

SECTION I: STATEWIDE PUBLIC LIBRARY STATISTICAL SUMMARY

Basic statistics for each library are listed in this section. The figures in this section are total figures for 1990-91 for each library and offer a view of individual libraries. These statistics provide the library with basic information on the question "where are we?" This is the baseline information needed by librarians and trustees in planning and managing library services. A library may also use other libraries' statistics for comparison. This section allows an individual library to review the statistics of the libraries of interest. These comparison libraries may be those serving similarly-sized communities or they may be neighboring libraries.

Data included in the tables in this section are reported on the Illinois Annual Report Forms submitted by 614 (out of a total of 624) public libraries. The libraries are listed alphabetically by location, with the legal name used as a subheading. The tax information is supplied by the Illinois Department of Revenue and is reported for all 624 libraries. A cross-reference listing is included in Appendix A to match the legal name of libraries with their corresponding location. Appendix B contains definitions and acronyms for the variables for which statistics are computed.

Footnotes to the data file are chosen primarily on the basis of a library's self-reported anomalies. By grouping the footnotes into categories and listing those libraries reporting similar information under each heading, it should be easier to retrieve the information for a specific library.

The libraries are listed by location, and then by legal name of library if there is more than one library located in that city. The location listing is determined by the mailing address of the library.

SECTION II: PUBLIC LIBRARIES GROUPED BY SIZE OF POPULATION SERVED

This section examines public libraries by population, a common comparison group for individual libraries. In the tables that follow, libraries are grouped by the size of population served. The nine population groups are:

Under 1,500
1,500 to 2,999
3,000 to 4,999
5,000 to 9,999
10,000 to 24,999
25,000 to 49,999
50,000 to 74,999
75,000 to 250,000
Over 250,000

For each population group, there is one table; "Ratios and Percentages Derived from Statistics of Public Libraries Serving a Selected Population Group". Summary tables of averages, percentiles, ratios and percentages are found in Tables 2.1 and 2.2 at the beginning of the section.

The statistics presented in the table for each population group are derived from the data in Section I. Ratios combine two basic statistics, such as the number of circulation transactions per capita. A library might have 10.4 circulation transactions per person based on population served. Percentages look at one statistic as a proportion of another, such as adult circulation as a percentage of total circulation. A library may have an adult circulation that accounts for 62% of total circulation.

SECTION III: PUBLIC LIBRARIES GROUPED BY SYSTEM

As discussed in the introduction to Section II, statistics provide useful descriptions of groups of libraries. In the tables in this section, libraries are grouped by their membership in one of Illinois' 18 multi-type library systems.

For each system two tables are given: a table listing each library and its resources and a table listing financial data for each library in that system. Totals are given for each system. Ratio and percentage tables for each library system which show averages, highs, lows and percentile figures are also provided.

Definitions and Acronyms

These definitions and acronyms are for variables included in the statistics listings for tables in this publication. The source for these statistics, unless otherwise indicated, is the 1990-91 Illinois Public Library Annual Report form (IPLAR). Other sources of data include the 1980 Census (CENSUS), the 1989 Illinois Department of Revenue tax information tape (TAPE), and the Illinois State Library (ISL). The definitions are listed in alphabetical order.

ASSD VAL PER CAP: Equalized Assessed valuation per capita. The assessed valuation of the area served per capita, in dollars. (TAPE, CENSUS, ISL)

ATTENDANCE: Total number of persons entering the library, including persons attending activities and those persons requiring no staff service. Use an actual annual count, if available; of use an annual estimate calculated on a count taken during a typical week.

AUDIOVISUAL EXPENDITURES: Expenditures for audiovisual and all other non-print materials.

BOOK STOCK ADDED: Total number of book volumes added.

BOOK STOCK HELD: Total number of book volumes held at the end of the year.

EAV: Equalized assessed valuation.

EQUALIZED ASSESSED VALUATION: Equalized assessed valuation is the figure of real property reported in thousands of dollars. Information is taken from the abstracts on file with the Illinois Department of Revenue for the 1989 assessment year. For public libraries whose service area is in more than one county, a separate assessment and tax rate is shown for each county. (TAPE)

EXPENDITURES FOR WAGES AND SALARIES: Included in this figure are wages and salaries paid to all staff except maintenance personnel and fringe benefits such as the library's contribution for insurance, social security, and the Illinois Municipal Retirement Fund.

FILMS: Included in this figure are 8mm and 16mm motion picture films, videotapes, videocassettes, and videodiscs.

FRINGE BENEFITS: Fringe benefits paid by the library such as insurance, IMRF, social security, etc.

FSCS: Federal-State Cooperative System for Public Library Data. Collect annual public library statistics from each state. Supported by the U.S. National Commission on Libraries and Information Science and the National Center for Education Statistics.

FTE : Full-time equivalent staff employees based on a 40 hour work week.

FTE PER 1000 POP: Full-time equivalent, based on a 40 hour work week, per 1,000 population. The number of full-time equivalent staff, excluding building maintenance staff, per 1,000 population. (CENSUS, ISL)

HOURS OPEN PER WEEK: The number of hours the central library was open during a typical week in October 1991.

INTERLIBRARY LOANS: Materials borrowed from or to other libraries.

ISL: Illinois State Library, Springfield, Illinois.

LRC: Library Research Center, Graduate School of Library and Information Science at the University of Illinois, Urbana-Champaign.

LIBRARY MATERIALS EXPENDITURES: Expenditures for all library materials.

LOCAL GOVERNMENT RECEIPTS: The amount of revenue received by the library from local government sources during the fiscal year. This amount does not include a working balance from the previous year, income from tax anticipation warrants, revenue sharing, proceeds of a bond issue, or the monetary value of services provided free by the local government (e.g., audit tax, social security tax and working cash fund tax). This figure includes income for the year in which the money is received.

MAT EXP PER CAP: Materials expenditures per capita. Expenditures per capita for library materials, in dollars. (CENSUS, ISL)

MLS: Master's Degree in Library Science.

MLS % OF TOTAL STAFF: Percentage of total staff holding an MLS. Hours per week worked by staff holding a library degree at the master's level as a percentage of total FTE hours per week, not including building maintenance staff.

NONRESIDENT FEE: The nonresident fee shown is the fee charged per family per year for use of the library. Exceptions are indicated by a footnote.

OPER EXP PER CAP: Operating expenditures per capita. Total operating expenditures per capita, in dollars. (CENSUS, ISL)

OTHER OPERATING EXPENDITURES: Operating expenditures, other than expenditures for wages and library materials, as a percentage of total operating expenditures.

PER CAPITA: Refers to any amount divided by the population of the library's service area. It is defined as "of, by, or for each individual".

PERCENTAGE (%) ADULT TRAN: Percentage of adult transactions. This is the circulation of adult materials as a percentage of the total circulation.

PERCENTAGE (%) LIB MAT: Percentage of library materials. Expenditures for library materials as a percentage of total operating expenditures.

PERCENTAGE (%) OTHER EXP: Percentage of other expenditures. Operating expenditures, other than expenditures for wages and library materials, as a percentage of total operating expenditures.

PERCENTAGE (%) VOLS ADDED: Percentage of volumes added. The number of book volumes added as a percentage of the number of book volumes held at the end of the year.

PERCENTAGE (%) WAGES: Percentage of wages. Operating expenditures for wages, salaries and fringe benefits for paid staff, not including building maintenance staff, as a percentage of total operating expenditures.

PERIODICAL TITLES CURRENTLY RECEIVED: Number of periodical titles currently received.

POPULATION SERVED: The population according to the 1980 census for all but district libraries. The latter provided population figures for their service areas. (ISL, CENSUS)

PRINT EXPENDITURES: Expenditures for books, periodicals, microforms, and other printed materials.

RECIPROCAL BORROWING: Materials lent **directly to cardholders** from other libraries.

RECORDINGS: Included in this figure are records, tapes, cassettes, compact discs, etc.

REFERENCE QUESTIONS: A question which requires the use of books, periodicals or other resources such as index tools, the library catalog, online data bases or people outside the library.

REGISTERED BORROWERS: Residents who have registered with the library to have borrowing privileges.

SAL HEAD LIBR: Salary of head librarian. Annual salary of the head librarian, as of the last day of the FY 1990/91. When an hourly wage was reported rather than an annual salary, the annual salary was calculated by multiplying the hourly wage times the number of hours worked per week times 52.

TAX RATE: The tax rate reported for all types of libraries is for general library use only and may not include rates levied by libraries for a variety of special purposes (e.g., social security or worker's compensation). Tax rates should be interpreted as follows: a tax rate of 0.12 is equal to 12 cents per $100 of assessed valuation. Information is taken from the abstracts on file with the Illinois Department of Revenue for the 1989 assessment year. (TAPE)

TOTAL EXPENDITURES: Total operating expenditures plus capital outlay (for sites, buildings, construction or remodeling, and purchase of vehicles, debt retirement and other major fixed assets).

TOTAL OPERATING EXPENDITURES: Expenditures for wages, salaries, and fringe benefits for all employees, for library materials, for supplies, for binding and rebinding, for plant operation and maintenance, and for all other current operating costs.

TOTAL RECEIPTS: The total amount of money received by the library from all sources during the fiscal year, including state aid, revenue sharing, receipts for capital expenditures, gifts, etc. This does not include the working balance from the previous year, income from tax anticipations warrants, or the monetary value of services provided by the local government. Excluded from this figure is income (e.g., endowment monies) given directly to the Friends of the Library group instead of the library.

TOTAL STAFF IN FTE: Full-Time Equivalence is figured on the basis of a 40-hour week. Included in this figure are professional staff, technical and clerical employees, and pages. Excluded from this figure are maintenance staff, persons not paid by the library, and vacant positions.

TOTAL TRANSACTIONS: The total direct circulation of all materials to library users. This figure includes both interlibrary loans received from other libraries and reciprocal borrowing.

TRANS PER CAP: Transactions per capita. The number of circulation transactions per capita for the population served. (CENSUS, ISL)

TRAN PER FTE: Transactions per paid full-time equivalent staff. The number of circulation transactions per paid, full-time equivalent staff, excluding building maintenance staff, based on a 40-hour work week.

TRAN PER HOUR OPEN: Transactions per hour open. The number of circulation transactions per hour the central library was open. This is found by dividing the total number of circulation transactions for the year by 52 times the number of hours open during a typical week in October 1991.

TRAN PER ITEM HELD: Transactions per item held. The number of circulation transactions per item in the collection, including books, films, video materials and audio recordings.

VOLS ADDED: The number of book volumes added during the fiscal year.

VOLS HELD: The number of book volumes held by the library.

VOLS ADDED PER CAP: Volumes added per capita. The number of book volumes added per capita. (CENSUS, ISL)

VOLS HELD PER CAP: Volumes held per capita. The number of book volumes held per capita. (CENSUS, ISL)

WAGES AND SALARIES: Total expenditures for wages, salaries, and fringe benefits of all staff employees including maintenance staff.

ILLINOIS STATE LIBRARY, SPRINGFIELD, IL 62701-1796
PUBLIC LIBRARY ANNUAL REPORT
1990-1991

Every public library in Illinois is required by law (Chapter 81, Sec. 4-10, and elsewhere in the ***Illinois Revised Statutes***) to file this annual report with the State Library. The purpose of this report is to obtain and publish data on the resources and services of all Illinois public libraries for use by all concerned. Each library is asked to file this report with its system headquaters **AS SOON AS POSSIBLE UPON (AND BY NO LATER THAN 30 DAYS AFTER)** completion of its fiscal year ending between July 1, 1990, and June 30, 1991. Please complete and return this form promptly. (By law, public library districts have until Oct. 1 to file this report; however, it would be appreciated if the form is filed by Aug. 1.) Every public library district should send the State Library a copy of the certified audit of its accounts within 6 months of the close of the fiscal year. That document can be sent to the State Library later.

Please do not leave any item blank. Enter "0" if the appropriate entry for an item is zero or "none." Enter "N.A." if an item does not apply to your library. If an exact figure is not available for a particular item, but it is known that the amount is greater than zero, enter an estimate of the amount. Type your responses or print in black ink. To help prevent mistakes in assembling photocopies of several different libraries' reports, please write the name of your library in the line provided in the right hand margin of pages 1-6.

ILLINOIS STATE LIBRARY, SPRINGFIELD, IL 62701-1796
PUBLIC LIBRARY ANNUAL REPORT, 1990-1991
SUPPLEMENTAL REPORTING FORM

Although the Illinois State Library has been participating in the national collection of public library statistics for the Federal-State Cooperative System for Public Library Data (FSCS) during the last two years, several data items are needed for full participation.

Your cooperation is requested in completing the following data collection form. The information you provide will allow us to participate fully in statistical comparisons on a national level, and to determine whether Illinois public libraries are already gathering this data.

Complete the following blanks, providing data or using NC (not collected). Please do not leave any item blank. Enter "0" if the appropriate entry for an item is zero or "none". Space for your comments is provided on page two of this supplement.

Please return the completed Supplemental form with a copy of the completed IPLAR to your library system headquarters.

GENERAL INFORMATION

S-1. Legal Name of Library _____

S-2. Total weekly public service hours for all outlets: _____

Report the **sum** of all public service hours for all public library facilities for a typical week without holidays. For bookmobiles, include only the hours during which the bookmobile is open to the public; do not report travel time. Do not include hours for deposit collections or for other unstaffed outlets.

To calculate this figure, determine the number of hours each of your outlets is open for public service for a typical week, and then **sum** these figures. For example, a library with a central library, 2 branches, and 1 bookmobile might report:

Main library	70 hours per week
Branch #1	35 hours per week
Branch #2	40 hours per week
Bookmobile (hours open to the public)	25 hours per week
Sum of all public service hours	170 hours per week
